This map has everything. Old ship building wharfs, great Victorian engineering and an elegant foot bridge. (Navigation care – weaving under the rail viaduct and passed the pumping station to Weir Street.) Follow map to the Northwich waterfront, past Waitrose waterfront and to the black-and-white buildings of Northwich town centre and back on to the waterfront. Enjoy the contrast of a new 21st century development; cinema, supermarket and multi story be car park etc. I think the contrast works well. Follow the road round to Carey Park gates.
